

MAINTAIN YOUR OPTIMAL METABOLISM

NATURAL ACCELERATOR™ is the safe, natural way to support healthy metabolism.

WHY YOU NEED NATURAL ACCELERATOR:

SUPPORT HEALTHY METABOLISM

Alpha-lipoic acid converts glucose into energy to help your body achieve maximum performance.

NATURAL THERMOGENIC INGREDIENTS

Carefully selected cayenne, green tea, cinnamon and ginseng help to increase energy.

NO NASTY STIMULANTS

Natural Accelerator does not use any stimulants that cause flushed or jittery feelings.

WHAT IS NATURAL ACCELERATOR?

A powerful, natural supplement that contains nutrients which support fat and protein metabolism.

HOW IT WORKS:

Natural Accelerator uses natural ingredients such as cayenne, green tea, cinnamon and ginseng to support thermogenesis and help boost metabolism.

THERMOGENESIS IN ACTION

Thermogenesis is the body's production of heat that is related to metabolic rate. Thermogenesis can be 'turned up' through the use of certain natural compounds, such as cayenne pepper or green tea, translating into higher energy expenditure, increased fat oxidation or the burning of kilojoules.

Perfect For:

- Adults who want to boost metabolism and want additional support on Cleanse Days
